No - Show Intelligence Dashboard

HealthPulse Clinic Network | 15 Clinics | 120000 Appointment | 2023-2025

Key Insight: Appointments booked 22+ days in advance have a 28.66% no-show rate vs 6.07% for same-day bookings. Priority intervention: automated reminders for all appointments booked 15+ days out, with specific targeting of 18-34 age group.

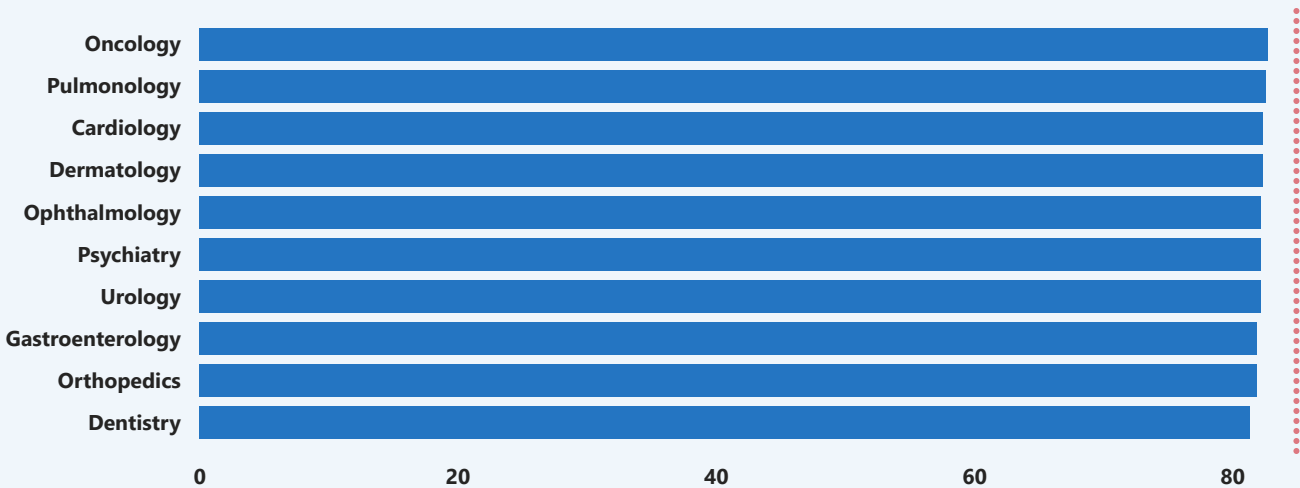

Provider Utilisation Analysis

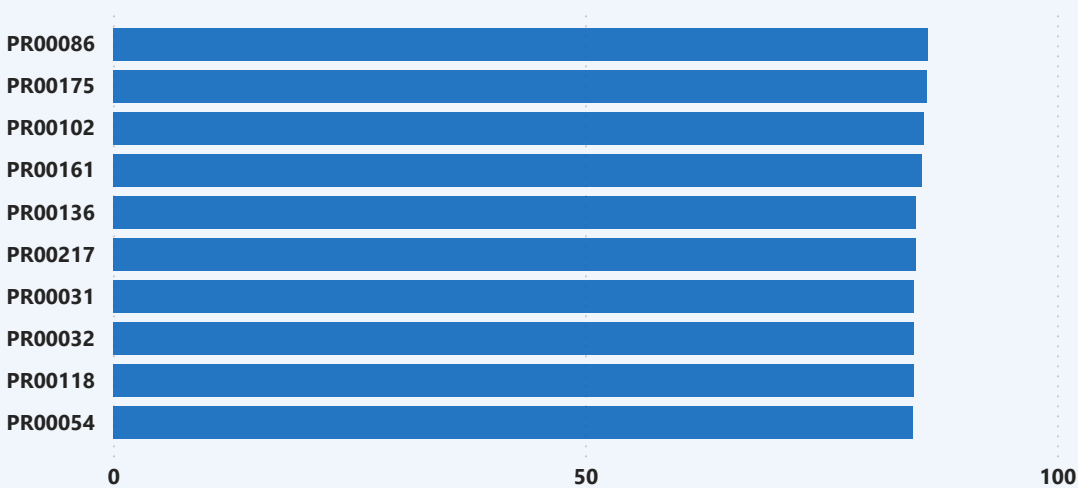

HealthPulse Clinic Network | 15 Clinics | 120000 Appointment | 2023-2025

Key Insight: No provider is underused — all 220 providers operate between 81-86% utilisation. However if the 17.79% no-show rate is resolved through intervention, network capacity will reach critical levels. HealthPulse must plan for 15-20% capacity expansion alongside no-show reduction.
